Hope Grows: Mental Health Intern

Hope Grows

Mental Health Undergraduate Intern

Our Mission

Hope Grows is a Pittsburgh based nonprofit that provides an environment that <u>empowers caregivers to</u> <u>seek wellness of mind, body, and spirit</u> through counseling, education, supportive services, and therapeutic respite opportunities. We work with our corporate healthcare partners in the area to provide quality support through unique coping and self-care programs. Our person/family-centered mental health approach is mindful, positive, and holistic. Our techniques integrate nature therapy into the counseling process to help nurture individual needs and help clients work through various mental health issues, including anxiety and depression, trauma and secondary traumatic stress, caregiver stress/compassion fatigue/burnout, grief and bereavement, identity loss, family/relationship issues.

Hope Grows Contact

- Important to know this information when speaking with clients
- Website provides a list of events when clients ask about upcoming things

Position Summary

The Mental Health Intern will provide peer support to family caregivers enrolled in the Think Caregiver program. The program is a phone support check in that brings support and resources right to the caregivers' fingertips in the comfort of their home or wherever they happen to be.

Proposed Schedule: Flexible

Intern Duties & Responsibilities

Essential Duties and Responsibilities

- Work with Executive Director and Intake Care Specialist to implement program support
- Supports family caregivers through peer support
- Actively listen and provide empathic support. Learn to evaluate and identify a need for further support beyond peer support.
- Data collection for caregivers in the Hope Grows system
- Research resources for caregivers
- Attend Caregiver programs, training and meetings as assigned and appropriate
- Program development and implementation of the Grow Together with Take a Break program

Required Education, Training and Experience

- Learn Salesforce database system
- Currently attending a university in an Undergraduate degree in Psychology or related Huma Service degree from an educational institution.
- Must demonstrate knowledge and/or willingness to learn about caregiver needs and active

listening, unconditional positive regard, and empathic support.

Think Caregiver Program

Think Caregiver Program

The Think Caregiver Program is a pilot program funded by UPMC and is part of a cobranding communication strategy that aims to educate and connect caregivers to resources and continuum of services. This program is about "Caring for the Caregiver" with a focus on overall well-being, tailored support services, and digital solutions. Serving as the connector for caregivers and caregiver communities in a more efficient way, the impact of this program is to offer a place to let the caregiver know support is available without leaving their home. Through the Think Caregiver Program, caregivers have the option to have the following:

Phone Support

Caregivers receive check-in phone calls from a Hope Grows volunteer to provide support, resources, and referrals.

Online Support

Weekly emails called "Simple Suggestions" are sent to caregivers with relaxation and stress relieving techniques.

Awareness

Through social media, caregivers can easily share caregiver information, resources, experiences, photos and inspiration with other caregivers.

Manual

- Caring for the Caregiver"
- Monthly Check-in Phone Calls
 - Provide support, resources, and referrals

• Weekly Emails

- "Simple Suggestions"
- Relaxation and stress relieving techniques

Practicum - Hope Grows

Daily Journal Entries and Weekly Reflections

01/08/21 12:30 PM - 2:00 PM

Lass (# ~ .200 Fm) This aftension we had our first group training. There are three interns this sensenter from RMU. At the beginning of the training we all introduced onselves. We reviewed the difference between phone support and online upper. Also discussed was the use of costal median and how Heipe Groups media accounts need to be revumped. main supervisor, and training supervisor, and oil tight on how hinding as uncomfident Think Caregory et al.

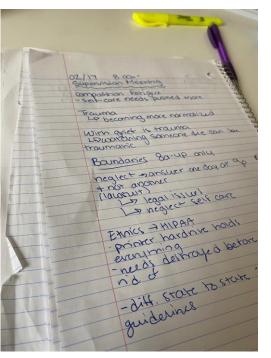

01/13/21 8:00 AM - 9:00 AM

and a site variant site of the second secon

01/15/21 12:30 PM - 3:00 PM

Today we had solver grow priming. It does many, servesses 3 solved Provinces which includes in origination of the other of the straining we reverses 1 solved and the today of the first we show the other straining of the straining of the straining of the straining of the first we show the straining of the strain

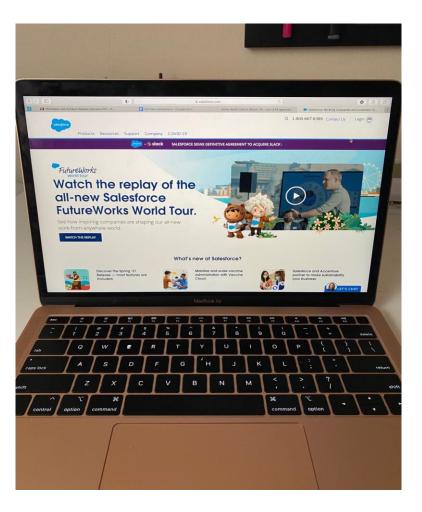

- Google Docs
- Notebook notes- for when speaking with a client and or during meetings
 - Helps me to remember what was said

Salesforce

- Site used to track clients and log their information
- Where one puts information after a Think Caregiver call

	-		_

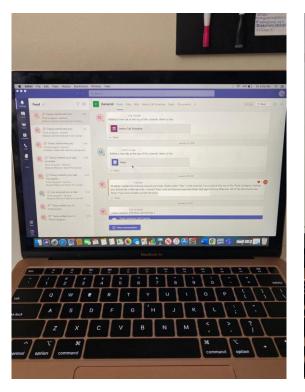

- Secure service/ app
- How we conduct Think Caregiver phone calls
- Mute this Device- keeps you from receiving phone calls accidentally
 - I answered thinking it was a normal call and it was a Vonage call
 - Told the client a staff person would call her back
 - Reached out to staff member to let her know
- Can listen to client voicemails if your assigned client calls back

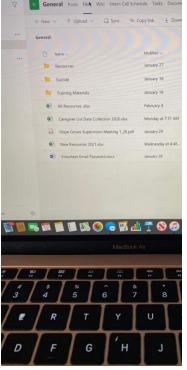

Think Caregiver Calls/ Voicemails

- Voicemail prompt when clients do not answer their monthly check-in calls
- Common occurrence to leave a voicemail

Google Teams

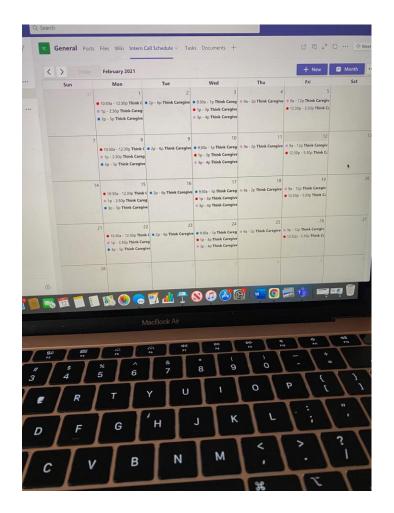

- Find resources and files for Hope Grows
- Calendar for meetings

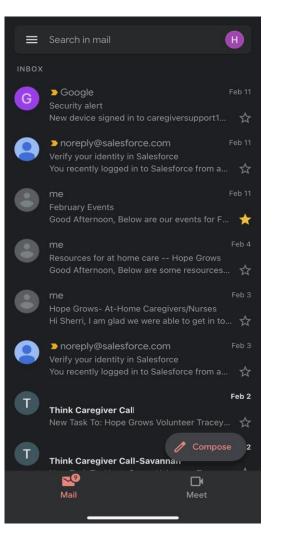

Intern Calendar

- Found on Google
 Teams
- Interns put hours they could make phone calls and conduct research
- Vonage only allows two people to use the app at once
 - Made sure we weren't overlapping times

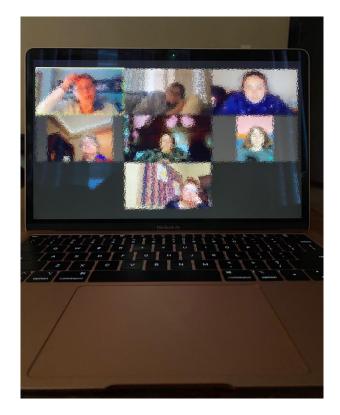

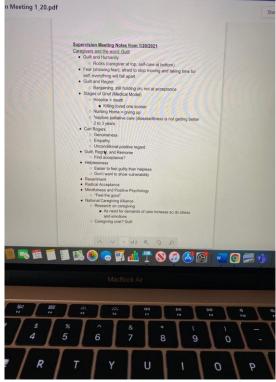

Gmail

- Main service of communications
- Lets one know when they are assigned a new call or meeting

Supervision/Consultation Meetings

- 8am meeting • Last an hour
- Via Zoom or Google Teams
- Discussed clients
- Discussed important topics
- Discussed future events
- Discussed intern progress

Comfortable Attire

- Can wear whatever you want
- Only are seen in meetings
 - \circ $\,$ Most wear PJs or lay in bed during meetings

Data Collection Worksheet

- 1. Look at the data collection spreadsheet.
 - a. Feel free to double check some of the clients to see if we have all of their information.
 - b. This will also tell you if they do not want to answer the questions. (This could be a note or comment in one of the activity logs)
- 2. Go to a client's profile and scan through the contact information.
 - a. If we don't have certain information in the upper portion of the client's profile page (e.g. income, work status, race/ethnicity, etc.) then we want to give them a call and see if we are able to obtain that information.
- Use the following worksheet when calling a client. This can be an easy way to get the information that you need.
- 4. If a client doesn't answer, I would try calling back a few days later.
 - If they still don't answer, maybe try calling again one more time in the following week.

Script for When Someone Answers:

- "Hi this is _____ from Hope Grows."
 - They will most likely ask you how you are doing and make it conversational. "<u>oh</u> I'm doing really good." "how have things been" etc. Then you can forward with the conversation by saying:

"I'm reaching out because we are curious to know any feedback that you have regarding our programs in general"

- Write down this feedback somehow.
- As the conversation goes on, mention to them "I'm not sure if you knew this or not, but all of our programs are actually grant funded. In order for Hope Grows to continue to receive funding, we have to report back certain demographic data. So if you're comfortable, would it be okay if I asked a few questions?"
- At this point, if they don't to answer these questions, do not force them. Just make sure they are receiving the services that they need and/or want.
- If they do agree to answer the questions, try and get the following information:

Extra Assignments

Neurologists in the Greater Pittsburgh Area

- Asked by a coworker to find this information out
- Sent via email

RMU Clubs

- Manager wanted to know the different clubs that RMU has
- There is the hope that RMU will start a Hope Grows club to get more students involved at Hope Grows

Giver Gathering with a Purpose!

Event interns created with staff to bring caregivers to Hope Grows and provide a way for them to give back

Joy of Living

- In main hallway of building
- Pamphlets and Joy of Living information
- Joy of Living is a support group
 - Focuses on the use of essential oils to help uplift one's mood

Hope Grows Tour

- See Hope Grows in person
 - Huge property
 - Pool hidden downstairs
- Limited parking
- Meeting staff and interns in-person

Hope Grows Check-In

- New addition to the building
- Future Bed & Breakfast check-in area
- Currently where everyone can try new essential oils made by staff and leave a review

Certified Wildlife Habitat

- The owner loves nature and got the property certified
- Helps build upon getting in touch with nature to heal and cope

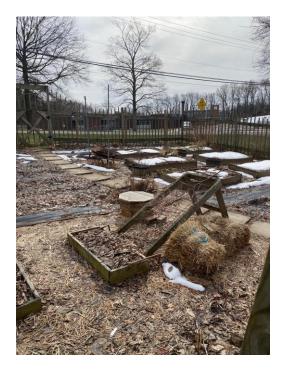

The Healing Tree

"Be a part of our story and help give back to those who give tirelessly to others."

- In entryway of "Iris Respite House"
- Leaf Sponsorship (\$500)
 - Each leaf gives a healing message of hope strength, and joy to every caregiver who sees it as they enter the house for care and respite

Hope Grows Garden

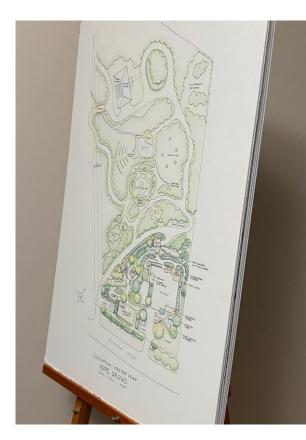

- Nice place for clients to come and relax
- Allows clients to get in touch with nature and make a difference
- Very pretty in the spring and summer
 - \circ \quad Not so much in the winter

- Great room to relax and hold a larger group
- Many plants and windows
- Super pretty and relaxing

Hope Grows Expansion/Future

- Future Bed & Breakfast
- The owner will live in a barn at the back edge of property
- Children's Retreat
- Pond
- Campsites
- Labrinth
- Fire Circle

Lisa's Future Office

- At the moment, the owner is at the front of the house
- Until renovations are complete she is considering moving her office into this shed

- Huge aspect of Hope Grows
- Needed for everyone
 - One speaks to clients all the time about selfcare and realized they themself need selfcare
