

# Glade Run Psych Rehab

# Entry way/outside

191 South Park Street, Rochester PA

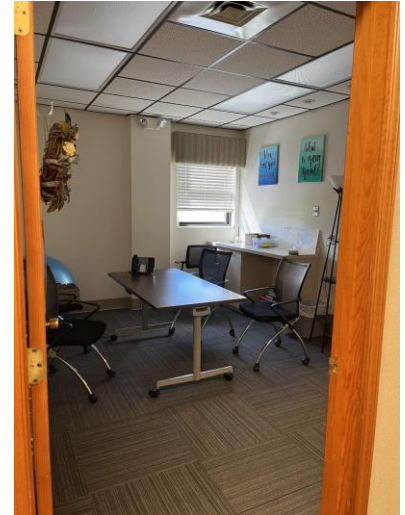

The left door leads to the community room, right door to the lobby

# Lobby/office area (hall)

The waiting area as well as the hallway to the office side of the building

Staff will hold intakes, interviews of new consumers, meetings, etc. in these rooms

# Kitchen/Dining

Cooking and baking activities, where everyone does their part in creating a treat for all to enjoy

# Zen room

The room to relax, take a break and watch a movie. The wall art represents empowering consumers for their efforts and achievements in recovery.

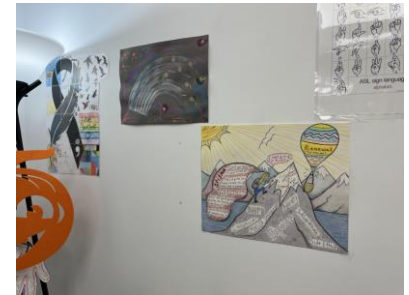

Around the corner is the door to the garden where we grow our own vegetables which we cook!

# Main group room

This is where we have morning and afternoon groups, where we check in with each other, and create

So many wonderful discussions, full of emotion, good times and memorable moments

# Duties/Responsibilities

- door cam
- copy machine
- notebook for notes
- help run group

Here is the desk I spent time at where I helped write notes and talk with staff. The other photo shows the security camera in which I checked to see who was at the door to let in.

## Overall takeaways

I loved working at Glade Run's Psych Rehab location. I would highly recommend this internship to others, it was very rewarding to work with the people there. I enjoyed getting to know the staff and consumers each week. It is a time I will never forget and always cherish those moments with everyone involved. Advice I would give to student would be to come prepared, be open to change of plans as we do this often and to be open to people of different backgrounds and life experiences.
