\* Blank comment responses are not shown. \*

---

**4. The instructor's presentations were clear and understandable.**

104 - He went way to fast on slides then goes off topic a good but

---

**8. The instructor explained course material using more than one approach.**

104 - He only used powerpoint but did not provide a way to see them after and just flew through them

112 - if we had questions he would make it more understandable

---

**11. The instructor graded and provided feedback which was clear, consistent and timely.**

104 - He did not provide feedback

---

**12. Exams, assignments, or projects accurately reflected course content.**

104 - Half the time the test did not seem like it went with what we were learning during that time

---

**13. Assignments or projects helped me learn the material.**

104 - We did not do any other assignments or anything so all we had was the notes and the book

---

**14. How could this course be improved to make the instruction more effective?**

101 - Study guides or some form of study help would be nice

102 - Have more outlets for preparing for exams. Also making the exams easier in a way considering almost every exam most students would get bad grades.

103 - I think assignments for studies would be helpful and more engaging.

104 - He could provide more ways to help us understand the course and give a little more assignments that breakdown the material we were learning

107 - maybe some projects.!!

108 - maybe on the tests make some questions a little easier to understand? sometimes it takes me a few minutes if staring at the words of the questions to understand them, and that is a little bit discouraging to me and may affect my performance on any of the tests.

109 - I liked the course.

111 - I thought this course was very interesting and well-run. I think if you just tried to dumb down some concepts a bit more it would be helpful. Sometimes the wording of definitions and such left me struggling when i went to study the material. I do very well when i get two definitions of a concept so at least for me that would be helpful.

112 - Think he did a good job and made it very effective

**15. What do you believe this instructor has done especially well in the teaching of this course?**

101 - He is very fun with his teaching

102 - Keep us interested during class and made class a fun experience.

103 - His lectures are thorough and he's ready to answer any questions.

104 - He was understand and taught to his way of understanding and you can tell he knew what he was talking about. But he failed to realize not everyone understands at the level he does

107 - he was always there for questions and made the classes interesting!!!

108 - DP is the best psych professor i've had, even though he is difficult he makes learning about the information more fun than any of the other professors i've had. I am sad that i might not be in any more of his classes.

109 - Getting through all the material.

111 - I think you are very passionate about the subject so it was nice learning from someone so knowledgeable. I really like that you used well-known studies to try and help explain concepts. That made it a bit easier to understand.

112 - I think he made it fun and entertaining

113 - He has always provided a great atmosphere and made us feel comfortable in the class about answering questions or contributing to the subject we are discussing
